

# 8901RFK

Emergency Equipment Parts and Accessories

## FEATURES & BENEFITS

### Safety

8" x 10-3/4" universal emergency sign make the unit easily detected in an emergency. Test card to record weekly checks helps maintain the unit's best working quality.

### Eye/Face wash Heads

Green ABS Feather-Flo® head provides multiple soft-and-steady flowing streams of water for a maximum coverage area of the eyes, face, and body. Further equipped with integral flip top dust cover that automatically releases with the flow of water, unit stays protected from debris up until the last second before use.

### Flow Control

Rubber 6.25 gpm flow insert automatically controls the water flow rate to produce a full continuous flow of water for the irrigation process.

### Eye/Face wash Valve

Valve is designed so full continuous flow occurs with the simple squeeze of a lever providing an easy start to the irrigation process.

### Hose

The 8' swivel hose delivers a wide coverage area and is pressure rated at 250 psi to further optimize durability.

## OPTIONS

- Repair Kit: Model VRKSP248 valve repair kit for Model SP248 squeeze handle valve.
- Vacuum Breaker: Model SP212 is a chrome-plated brass vacuum breaker.

## SPECIFICATIONS

Model 8901RFK body spray features a Feather-Flo® ABS plastic eye/face wash head, stay-open squeeze lever valve, eight-foot hose and installation kit. Kit includes clamp hook-up, tee clips and fitting for retrofit installation on most combination shower and eyewash units. Supply: 1/2" IPS.

Model 8901RFK is certified by CSA to meet the ANSI Z358.1-2004 Standard for Emergency Eyewash and Shower Equipment. Per ANSI, "Hand held drench hoses provide support for emergency shower and eyewash units, but shall not replace them."

## APPLICATIONS

Perfect for the environment where safety is of the utmost importance and an extended coverage area may be needed. When installed properly, the 8901RFK is not only space efficient but also versatile, adapting to most Haws showers and eyewashes.

Unit 8901RFK is certified by CSA to meet the ANSI Z358.1-2004 Standard for Emergency Eyewash and Shower Equipment. Per ANSI, "Hand held drench hoses provide support for emergency shower and eyewash units, but shall not replace them."
